

WILL RECRUITERS PICK YOU
IN CAMPUS PLACEMENT?

Campus placement success depends on how prepared you are for the real world job requirements.

Project Based Learning:

- ☑ Basics of Python
- ☑ Intermediate and
- ☑ Data Science using Python

~~₹ 22,500~~

Full 3 Level Course

₹ 9,990 only

Attend all classes and

KNOW YOUR COURSE (Level 1)

WHY PYTHON?

- Easy to learn and used widely
- Versatile and efficient
- Rapid application development
- Cross platform language
- Supportive Python Community
- Huge open libraries and frameworks available
- Open source toolkits and environment available.
- Preferred programming language by many companies
- Preferred language for Data Science, Machine Learning, Artificial Intelligence, Deep Learning, Cloud Computing, Big Data, etc.
- Supported by many big companies creating job opportunities.

Basics of Python (Level 1)

- Variables & Datatypes in Python (integer, string, float, Boolean, Complex)
- Operators
Arithmetic Operators. (+, -, *, %, **)
Relational Operators. (<, >, <=, ==, !=)
Assignment Operators. (=, +=, -=, *=)
Logical Operators. (and, or, not)
Membership Operators. (in, not in)
Identity Operators. (is, is not)
- Conditional Statements: -
if statement
if...else
if...elif...else
Nested If
- Loops
While Loop
For Loop,
for loop with break and continue.
- Data Structures

Fee for Level 1
only
₹ 2,500

2 projects based on Basics of Python.

Empowering Students

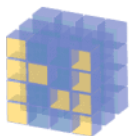

- ☑ Transparent course material
- ☑ Rate the course material
- ☑ Rate the instructor

KNOW YOUR COURSE (Level 2)

KNOW BASIC PYTHON?

- If you are already familiar with the Basics of Python you can join this course from Level 2 - Intermediate.
- Applicable fee in this case will be 20% less than the actual payable fee for the entire course.

NumPy

pandas

matplotlib

Intermediate (Level 2)

- Introduction to Functions
(Defining a Function, Creating a Function, Calling a Function, Python Docstrings, Declaring and Accessing Docstrings, Examples.)
- Scope and Lifetime of Variables.
- Modules
- Packages
- Types of Functions:
 - 1) Built-in functions
 - 2) User Defined Functions.
- Function Arguments.
- Libraries: NumPy
- Libraries: Pandas
- Libraries: Matplotlib

Project

Payment Link for Level 1 & 2: https://stemschoolprogram.com/python_level2_payment.php

Fee for Level 1
and Level 2
together: ₹ 5,500

Quiz and Assignment

- ✓ Develops confidence
- ✓ Develops debugging skills
- ✓ Prepares you for interviews
- ✓ Prepares you to convert ideas into products

KNOW YOUR COURSE (Level 3)

Data Science (Level 3)

- Understanding Data Science
- OOPS Concept
- Inheritance, Multiple Inheritance
- Data Visualization with Pandas
 - Line Charts
 - Bar Charts
 - Seaborn
 - Histograms
 - Scatter Plots

Final Project

Fee for Level 1 ,
Level 2 and Level
3 together:
₹ 22,500

WHAT IS DATA SCIENCE?

- Data Science is related to Data Mining, Machine Learning (ML), and Big Data.
- Data Science is discovery of hidden insights for taking data driven decisions.
- It uses scientific methods, processes, algorithms and systems to extract knowledge and insights from many structured and unstructured data.

READY FOR
INTERVIEW?

STREAM
edutech

by the engineers for
the future engineers

There were 75,000 vacancies
of Python Programmers in
India in Dec. 2019.

Who is looking to hire you?

- ☑ TCS, Infosys, TechMahendra
- ☑ Accenture, Cognizant, Syntel
- ☑ Google, Amazon, Facebook
- ☑ Start-ups and academia
- ☑ Big or small they all want Python Programmers

KNOW WHAT YOU GET

THE COURSE AND THE CERTIFICATE THAT MATTERS IN YOUR JOURNEY TO REAL WORLD CAREER

- ✓ Complete Online Course (40 sessions of one hour each).
- ✓ Live doubt clearing.
- ✓ Be a part of coding students community.

Big Bonus 1

- Internship, part-time and full-time job for select students with STREAM Edutech may be offered the end of the course.

Big Bonus 2

- Free entrepreneurship workshop at the end of the course. Including Discussion on how your ideas can be developed as your own business.

KNOW YOUR INSTRUCTOR

Banita completed engineering from Mumbai University and was placed in STREAM Edutech Pvt. Ltd. through the campus placement route.

She can relate with the mindset of UG students and help you with tips that enabled her to crack the job interview.

She works as a content developer a lead instructor at STREAM Edutech.

Data Science, AI, ML, Python... that's what she eats, drinks and sleeps.

You can also talk to her about Mumbai's famous street food joints.
